

## ONLINE SUPPLEMENTARY MATERIAL

### Supplement 1

**Fig. S1.** A) A close view, based on a satellite image (map data: Google, Maxar Technologies), of the general landscape where the new record (red dot) of *Deltamys kempii* was obtained in southern Samborombón Bay (note the extensive marshy area characterized by tidal channels); B) A view of the vegetation at the trapping site in Arroyo las Tijeras (photo: MR).
